What is BLAST?

The Lutron® Basic Lighting and Sales Training (BLAST) is designed for any residential dealer or contractor who is interested in the mid-market, retrofit lighting control opportunity.

At BLAST, you will learn about:
- The "business case" for RadioRA 2 and the mid-market, retrofit opportunity
- System design and programming utilizing the RadioRA 2 Essentials software
- Integrating RadioRA 2 using third-party equipment
- Activating devices and transferring the programming

Upon completion of the course and its requirements, attendees earn access to the RadioRA 2 Essentials software that allows for system expansion of up to 100 devices.

What are the training options?

We offer two options for completing this FREE Level 1 (BLAST) qualification:

BLAST-Off is a one-day local qualification training.

BLAST-On is an online qualification training for those who are unable to attend a BLAST-Off due to location or timing.

Sign-up and requirements

BLAST-Off:
All signups for BLAST-Off are managed through Lutron's partner distribution network. Contact your local branch today or email ra2training@lutron.com to find out when a training session is happening near you.

To complete BLAST-Off training and receive software access, you must attend the full day of training.

Sign-up and requirements (continued)

BLAST-On

To complete BLAST-On training and receive software access, you must successfully complete all four steps:

1 **Pre-work consisting of seven self-paced, online modules**

To access the pre-work, create an account on the Lutron Learning Management System:
http://go.bluevolt.com/CoBrandTemplate/home.aspx?brand=lutron

Once you have an account with Lutron's Learning Management System, log in and search for the course "RadioRA 2 Basic Lighting & Sales Training—Level 1 Qualification" and complete the following modules:

1. The Lutron Story *(optional)*
2. Electrical Basics *(optional)*
3. Value Proposition for Security Installers *(optional)*
4. The RadioRA 2 Opportunity *(required)*
5. Clear Connect™ RF Technology *(required)*
6. Product Line Overview *(required)*
7. Integration *(required)*

The modules should be taken in the order listed above, and must be completed before attending the Capstone webinar component and taking the online exam. The final exam will include questions from each module.

2 **A 2½-hour live capstone webinar to review the RadioRA 2 programming software** *(required)*

After completing the pre-work modules, register for an upcoming Capstone webinar at
https://student.gototraining.com/rt/1713988334759666688

3 **An online exam** *(required)*

Upon completion of the Capstone webinar requirement, log back in to
http://go.bluevolt.com/CoBrandTemplate/home.aspx?brand=lutron and take the
"RadioRA 2 Basic Lighting & Sales Training—Level 1 Qualification exam."

Participants must achieve an 80% or higher in order to pass the exam. There are a maximum of three (3) attempts to pass. A Lutron representative will contact you if additional assistance is required.

4 **Purchase of a RadioRA 2 starter package (RR-SINGLE-STR-WH) or other RadioRA 2 products of equivalent value.**

This purchase is required to complete BLAST-On. Submit an invoice from your local distributor to
RA2BLASTOn@lutron.com

Once your invoice has been processed, you will be pre-registered for myLutron, where you can access the RadioRA 2 Essentials software, sales tools, online instructional videos, and more.
